In appreciation of her services as secretary-treasurer of the former Vulcan Library Board for the past seven yeas, Mrs. Clark was presented with a pair of pottery vases by the meeting.

It was decided to hold Hobo teas from now to next meeting in November. Five dollars was voted to be given to the Unitarian Services in response to their appeal for funds.

All the members took part in the program of the afternoon which was based on Alberta's industries. Short accounts were given of many interesting products from Gladioli raised along the Peace River to woolen products of the Magrath Mills.

The roll call was answered with a scripture verse.

Mrs. R. S. Irwin and Miss Viva Dennison assisted the hostess at lunch.

The candidates were John and Cassie Graham, Dale Clark, David Saxby, Bob Wedderburn, Glenna Joiner, Diane Collier and Sharon Buehler.

Elks' Carnival Proceeds For Picnic Grounds

The date of the annual Elks' fall carnival has been set for the last two days of this month—Friday and Saturday, Oct. 30-31.

The carnival will again be held in the Vulcan Armouries and a trend of the times is evident in the choice of a grand prize, which this fall will be a Philco 21 inch Television Set. In addition to the grand prize, there will be four door prizes each night.

The annual Elks carnival is always well patronized, the net profits being used for local projects. This year the carnival profits will go towards the establishment of a picnic grounds at the Elks Memorial Park—a long-felt need of the town and district.

The Elks will again have all the popular carnival games, as well as bingo and other standard attractions.

Gale Atkinson is carnival manager and Harold Boutland is secretary. Tickets are now on sale and the proceeds are for an excellent project.

Canadian farmers had a net income from farming operations in 1952 of $1,949,900,000.

More than $1,000,000 worth of paper millinery, garment and laundry bags are produced annually in Canada.

Freight tonnage moves ahead: In 1952 Canadian railways moved an average of 31.6 tons per loaded freight car mile against 30.5 tons the year previous.

The average retail value of new passenger cars sold in Canada in 1952 was $2,483.

"Indian Summer"

Good Weather Allows Completion of Harvest

Ideal weather has prevailed thus far during the month of October, allowing the harvest operations to proceed uninterrupted. Harvest in the Vulcan area is practically completed.

The fine weather has allowed the grain to be harvested in dry condition. Farm storage bins are absolutely full and some grain is still to be seen piled on the ground.

There has been little change at local elevators, which are filled to capacity.

Vote on By-law Monday, Oct. 6

Voting on a by-law to authorize the issue of debentures for the purpose of adding an elevated storage tank to the water system of the Town of Vulcan will take place Monday, Oct. 26, from 10 a. m. to 7 p.m. in the Old Town Office.

Estimated cost of the project is $47,800. to be borrowed from the Provincial Government at an interest rate of 3¼ per cent, and to be repaid over a period of 20 years.

The assent of two-thirds of the proprietary electors voting on the by-law is required for this much-needed improvement to the water system and town ratepayers are urged to turn out and vote on Oct. 26.

Shower Honors Miss June Rossum

Local capital is financing the construction of the building, which is being leased directly to the Provincial Government Liquor Control Board. The one-storey building will measure 25 x 100 ft. and will be of fireproof, cement block construction. The contractor is Ernie Lind.

A permanent employee of the Liquor Control Board will be transferred to Vulcan as manager of the new store.

Reid Hill W.I. Makes Donations

The October meeting of the Reid Hill W. I. was held at the home of Mrs. Agnes McKay with 18 members and four visitors present. Roll call was answered with Thanksgiving verses.

FAO Helps to Improve Jamaica's Agriculture

Straddling the ditch to speed his job, this worker clears an irrigation canal at an agricultural experiment station in Jamaica. The station was set up at the suggestion of advisers from the U.N. Food and Agricultural Organization (FAO). At the station, formerly a wasteland, new techniques are being tested to expand and improve the country's rice production. In the background, an expert on an FAO team discusses joint projects with Jamaican officials.

SERVICE BOARD NOTES

H. S. Burns, Field Supervisor

We are rapidly approaching the season when our annual campaign for the control of Bang's Disease in the County of Vulcan will begin.

In a very short time you will be receiving some material from this office relating to the control of this disease, there will also be a return card in which you state the number of heifer calves you intend to have vaccinated this fall. The prompt return of these cards is very important as it gives us a chance to carry on the actual work of vaccination in a more economical manner than if the listing of calves is done at the time that the Veterinary is in the district working.

Another very important aspect of the work is the matter of facilities for the easy handling of cattle, and having plenty of help on hand. In regard to facilities some farmers and stockmen have first class chutes and corrals and others have not yet done much along those lines. It is not necessary to have elaborate arrangements for the vaccination of a few calves, a small squeeze or a swinging gate where three or four animals can be held at once, works very well. If a few neighbors get together on the day set and help one another for a few hours it hastens the work greatly and makes it easier on everyone.

We will always notify you at least the day before the work begins.

THE LOWERING OF TARIFFS

Several speakers at the recent Annual Meeting of the Canadian Chamber of Commerce held in Edmonton, expressed the opinion that the interests of agriculture, and particularly the export wheat and flour industry, required that tariffs against foreign goods should be lowered. Now that interests seem to be awakened, farmers and their organizations might do well to press this view on Provincial and Dominion Governments.

A GENERAL MOTORS VALUE

...and discover why
More people buy Chevrolets than any other car

You're "sitting pretty" when you get behind the wheel
First thing you'll notice is the quality of the interior. Rich-looking upholstery and appointments — color-matched to the exterior color. Chevrolet, you know, has the world-famous Body by Fisher —and you can certainly tell the difference in workmanship!

You'll find you get more power on less gas
Chevrolet's two great valve-in-head engines are *high-compression* engines. In Powerglide* models, you get the most powerful engine in Chevrolet's field — the new 115-h.p. "Blue-Flame." Gearshift models offer you the new 108-h.p. "Thrift-King" engine.

You'll discover it's the lowest-priced line
Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field. You can be ahead in *every* way with a new Chevrolet!
*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

You can even get Power Steering
You ought to try Power Steering to see how *easy* driving can be. Even standing still, you can spin the wheel with one finger! Yet there's nothing new to learn and you actually have safer control under all conditions. It's optional, of course, at extra cost.

You get greater getaway with the new Powerglide*
With Powerglide automatic transmission, you're *automatically* in "low" range for standing starts and for quick passing in city traffic. Then — automatically again — you slip smoothly into "cruising" range as you pick up speed.

Jumbo-Drum brakes give you smoother, easier stops
You'll feel safe and secure with these greatly improved Chevrolet brakes under your foot. An easy nudge on the brake pedal brings smooth, positive response—right now! With their 11-inch drums, Chevrolet brakes are extra large for extra safety.
